Nordstrom advisory panel survey participant, Seattle, Wash.

Talbots advisory panel survey participant, Hingham, Mass.

THOMAS ARRUDA

Chemistry/Assistant Professor

Conferences Attended

233rd Meeting of the Electrochemical Society (ECS); Seattle, Wash., May 2018

Scholarly Presentations

“Redox kinetics of vanadium compounds: promising materials for grid-scale energy storage,” NASA Rhode Island Space Grant Consortium Annual Symposium, Roger Williams University, April 13, 2019

“Workshop on predatory publishers/conferences,” McKillop Library, Salve Regina University, Oct. 30, 2018

Papers Presented

“Effect of chemical additives on the V(IV)/V(V) redox couple for vanadium redox flow batteries,” V. Trudel and T.M. Arruda, American Chemical Society Rhode Island Section Annual Meeting, Providence College, April 16, 2019

“Method development for understanding fundamental electrolyte chemistry of vanadium redox flow batteries,” D.J. Donnelly and T.M. Arruda, American Chemical Society Rhode Island Section Annual Meeting, Providence College, April 16, 2019

“Exploring concentration effects on electrochemical reversibility, membrane phenomena and crossover of V(IV) /V(V) electrolyte solutions for vanadium redox flow batteries,” S. Tian, J.S. Lawton and T.M. Arruda, American Chemical Society Rhode Island Section Annual Meeting, Providence College, April 16, 2019

“Exploring concentration effects on electrochemical reversibility, membrane phenomena and crossover of V(IV) /V(V) electrolyte solutions for vanadium redox flow batteries,” S. Tiano, J.S. Lawton and T.M. Arruda, NASA Rhode Island Space Grant Consortium Annual Symposium, Roger Williams University, April 13, 2019

“Effect of chemical additives on the V(IV)/V(V) redox couple for vanadium redox flow batteries,” V. Trudel and T.M. Arruda, SRyou Day oral presentation, Salve Regina University, March 27, 2019

‘Exploring concentration effects of electrolyte solutions on processes of vanadium redox flow batteries,’ S. Tiano, J.S. Lawton and T.M. Arruda, SRyou Day oral presentation, Salve Regina University, March 27, 2019

“Method development for understanding fundamental electrolyte chemistry of vanadium redox flow batteries,” D.J. Donnelly and T.M. Arruda, SRyou Day oral presentation, Salve Regina University, March 27, 2019

“Exploring concentration effects on electrochemical reversibility, membrane phenomena and crossover of V(IV)/V(V) electrolyte solutions for Vanadium Redox Flow Batteries,” S. Tiano, J.S. Lawton and T.M. Arruda, 11th Summer Undergraduate Research Fellowship (SURF) Conference, University of Rhode Island, July 27, 2018

“Porous lithium ion conductive glass ceramics for enhancing bond durability, strength for protective lithium pouches,” D.J. Donnelly; C.J. Patrissi; J. Rizzo; C. Schumacher and T.M. Arruda, 11th Summer Undergraduate Research Fellowship (SURF) Conference, University of Rhode Island, July 27, 2018

“Electrochemical and EPR measurements of vanadium redox couples for all vanadium redox flow batteries,” S. Tiano, J. S. Lawton and T. M. Arruda, Symposium on Larger-Scale Energy Storage 9 (A02), # 214, 233rd Meeting of the Electrochemical Society, Seattle, Wash., 2018

“Investigation of waste heat accumulation and internal resistance of AA NiMH cells,” D. J. Donnelly, C. J. Patrissi and T. M. Arruda, Symposium on Battery and Energy Technology Joint General Session (A01), # 76, 233rd Meeting of the Electrochemical Society, Seattle, Wash., 2018

Articles Published

Other Scholarly Achievements

Research Grant: \$15,000 from NASA EPSCoR for the project: “Understanding the factors that limit the performance of vanadium redox flow batteries”

Guest editor: Special issue on “The application of alloys and oxides in electrochemical and electromechanical systems” in the journal *Metals*

HEATHER AXEN

Biology and Biomedical Sciences/Assistant Professor

Conferences Attended

Genomics of Social Insects, Cold Spring Harbor, New York, May 5-8, 2018
Big Data Genomics Workshop for Undergraduate Professors. The Jackson Laboratory, Farmington Conn., May 21-25, 2018

Scholarly Presentations

Invited talk: Roger Williams Student Seminar Series, Bristol, R.I., “Understanding and Preventing Epidemics: What Can We Learn from Social Insects?” Nov. 7, 2018
Invited talk: Circle of Scholars at Salve Regina University, “Understanding and Preventing Epidemics: Lessons from Social Insects,” June 20, 2018

Other Scholarly Achievements

Grant awarded by National Science Foundation. “From Genome to Phenome in a Stressful World: Epigenetic regulatory mechanisms mediating thermal plasticity in *Drosophila*,” with Sara Helms Cahan, Brent Lockwood, and Seth Freitze (University of Vermont), Nick Teets (University of Kentucky) and James Waters (Providence College), funded September 1, 2018, \$4,771,722
RI-INBRE SURF training award: “A fire ant hybrid system as a unique model to study immune function.” Funded May 31-Oct. 31, 2018, \$25,000

BELINDA BARBAGALLO

Biology and Biomedical Sciences/Assistant Professor

Scholarly Achievements

Early Career Award RI-INBRE, National Institutes of Health. Three-year grant to investigate neural circuits underlying physiological response to environmental stress. This award includes funds for student employment, research materials and conference attendance.

R01 Subcontract, National Institutes of Health and UMASS-Amherst. Grant from the National Institutes of Health in collaboration with a team from UMASS-Amherst to study the developmental effects of PFOS exposure. This award funds five summer research students and research materials.
